

It was so nice to meet you last night at the Post 558 meeting. I sincerely wish you the best of luck with your upcoming surgery and a speedy recovery. I was serious with my offer, so if you end up needing any medical equipment please let me know.

If you know people or Posts that would like to donate medical equipment, we will gladly accept it through my Rotary Club's project. Since the project is run through our Endowment Fund, it is a 501(c) 3 donation and I can provide charitable donation letters for any donations.

If you would like to let Legion members know about this, we would greatly appreciate it. We are proud of our ability to provide durable medical equipment for those who cannot afford it and/or those who just need to borrow it for a short time. My contact information is below.

Thank you and best wishes,

Tracie E. Murray, JD, NHA
